

MAILS FOR EUROPE.—The letter bags of the Cambria, for Liverpool, will close in this city to-morrow afternoon. We shall publish an Evening Edition two hours before the mail leaves this city, containing the latest news for Europe.

non Council—extravagance, dishonesty, dirt, dust, mud, and all! The *Courier* is able to swallow only Mayor Harper, and rejects the Common Council because they have not done their duty.—This is very farcical. Pray what has Mr. Harper done? What have been his reforms? Why the only achievements which he has effected has been the memorable conversion of the Park Fountain into a huge basin of temperance grog on the Fourth of July, by throwing lumps of ice into the mud, and tying tin pans around the margin of that magnificent basin—the war on the poor Irish apple-women—and the organization of a body of Municipal Police, which no body ever sees, and which appears to exist only for the purpose of enabling some militia officer or officers to show off their astonishing knowledge of drill-room tactics. This "Native" corporation has been from top to bottom a miserable piece of imbecility and inefficiency, and even if the principles of the party were not utterly subversive of civil and religious liberty, the ruthlessness and treachery of its representatives in the Common Council, would of necessity ensure their indignant repudiation by all classes of intelligent persons in the coming election. As for the Wall Street press, their conduct and motives are easily seen through.

THE RIVER.—The *Pickensburg Sentinel*, of last Saturday, states that the Mississippi at that place was rising at a rate rather alarming to persons on the banks and in the neighborhood. The water was at the highest point of last year, and the waters above by the last accounts were nearly all rising. At Memphis it is said to be within a few inches of the highest point during the late winter. The bulk of the river, passing there, however, is from the Cumberland, which will soon run down. An overflow need hardly be apprehended, as the river is at present at a lower stage than it has been much better state than usual.—*N. O. Picayune*, March 20.

NOVEL SHIPMENT.—We are informed that E. Safford & Co., coal dealers, have caused the *Rio Grande*, now lying at Richmond, above the city, to be loaded with three hundred tons of anthracite coal. This is the first shipment of the kind ever made at that place. This, we think, is the first transportation of coal to the "Celestials," and should it prove profitable, a new era of commerce will be opened, from which Fenway will derive great advantage. The *Rio Grande* is the said firm are aware to ship 300 tons of coal to China.—*N. Y. New York*.—*Phil. U. S. Gazette*, March 28.

BALTIMORE COAL TRADE.—The big treaty has just taken in a cargo of 350 tons Cumberland coal destined for New York, for the use of the steamer *Great Eastern*, which is to sail for that port on the 29th of the month to the eastward.—*Baltimore American*, March 29.

Mr. Davidson, brought before the Senate of Michigan for contempt, left for New York before the case was disposed of, leaving a letter directing the Senate to send the

which has been already introduced, in relation to the knocking at the door; I saw Mr. Houseman on Saturday night, coming from the front stoop in the evening; my husband and myself were sitting on the front stoop at that time at the house; I don't remember if the window shutters were closed the Sunday previous; it was not unusual for him to be sitting on the front stoop, and he might have accidentally—not for the purpose of seeing if there was any person at home; I only looked once that day to see if he was sitting on the front stoop; frequently seen Mr. Bodine before waiting for the stage. Bodine was the first person to speak to Thompson either time he passed the lot.

POLICE OFFICER MANNING testified he took a letter from Mr. Bodine to the post office at 10 o'clock, and a letter gave directions to Mr. Waite to state that Mrs. Bodine was in this city the night of the murder, and slept at her home.

JUSTICE MATTHEW testified he was present when the letter was taken from Mr. Waite.

JOHN W. WATKINS testified he was on duty on Sunday night, and was on the front stoop at 10 o'clock, on her way to church; saw it closed; saw the window open.

HARRIS GARRETTON produced—Corroborated the testimony of Mr. Waite.

MR. ELIZABETH STRAING testified that Mrs. Bodine did not sleep at her house on Christmas night, in 1843, and that she was away for the night.

MR. GEORGE W. HOUSEMAN, sworn—examined by MR. WATKINS—(The production of this witness, who is brother-in-law to the prisoner, and was husband to the deceased, was objected to by the defense.)—He testified, I was absent from home on December, 1843; never gave a watch to his wife; I never saw her; I never saw an angle on the wall; I never bought it more than ten years ago; the hands were of gold and had no particular mark upon it. (Witness here identified

was more or less damaged. The principal part of the machinery was gotten out, but the boat is complete wreck.

☞ The trial of Dr. Kennedy, at New London for murder, resulted in a verdict of guilty on the 19th. The *Picayune* says that he is the brother of Mr. Kennedy formerly of New Orleans. The cause of the murder, we believe, was jealousy.

FOURTEEN DAUGHTERS.—A correspondent of the New Haven Courier, writing from the village of Leesville, gives the following account of a Connecticut family, which is the most interesting thing about Leesville, is that it is the birthplace of fourteen daughters, that is the "fourteen daughters," or one of the fourteen daughters, would require no explanation here, or in any other place, and is a family with you it may not be quite so plain. I will explain.

In the largest and most commodious house in the village of Leesville, lives a man, who is the father of fourteen daughters. He never has been married. His youngest daughter is now about twelve years old. Twelve of the daughters have been married and twelve are now living. What is the explanation of this? It is that the father has a regular rotation, that is, the oldest first, and so on. The father was heard jokingly to remark, "I will have no more going in my family—you must take them as they come."

The daughters have ever sustained a high character for their many virtues and good qualifications, and many of them have been married to men of high position and married respectable, worthy men, and have been prominently blessed in the marriage relation. When the people of Leesville heard of Mr. Whitmore's case, they were disappointed, but was not a son that he had a child. Although the old gentleman was not blessed with a son, he has many daughters.

and adjoining provinces; which certificate shall be forwarded to the collector of the port to which the goods are granted at the time of such exportation, and shall state that the same identical goods contained in the said manifest were landed at such foreign port, and duly entered at the time of such exportation, and that the same were disposed by the laws in force at such port on full and complete payment of the duties thereon, and that the said goods had been paid, or secured to be paid in full; and that the said ship shall be duly cleared by the collector of the port of the vessel in which the said goods were exported, that the same identical goods specified in the manifest were landed at the time of such exportation, and that the duties imposed thereon at such foreign port were duly paid; and that the said goods were duly entered at the certificate of the collector or chief revenue officer of such foreign port herein mentioned, were re-exported to the United States as herein prescribed in full and in the said affidavit.

Sec. 9. No goods, wares, or merchandise, exported from the United States, and which have been landed or brought into the United States; and on being so landed or brought into the United States, they shall be forfeited; and the penalty for so doing shall be had for the same as for piracy, and the distribution of the goods for their sale, as in other cases of forfeiture of goods illegally imported. And every person concerned in the violation of this section, shall be liable to a penalty of four hundred dollars.

Sec. 10. From the amount of duties on goods which have been so landed, the collector of the port shall be entitled to the drawback paid, and the residue shall be retained for the use of the United States.

Sec. 11. The Secretary of the Treasury is authorized to issue and to cause to be issued such measures to prevent the illegal re-importation of goods, which have been been
